

Pszczyna, March 6, 2022

SQD Alliance (formerly Team Prevent Poland) from Pszczyna together with its partners – companies APiRA and Mrija, as well as their employees organizes a charity fundraising campaign for families from Ukraine. SQD Alliance cooperates with several hundred people of Ukrainian origin on a daily basis. Feeling the responsibility for them, as well as the need to provide the most urgent support, SQDA welcomes the families of its employees and other people in need and organizes their stay in our country. In addition, apart from the families themselves and other people whose needs are enormous, support is given to current activities on the Polish-Ukrainian border.

We are currently organizing collections of property together with our employees, local activists, clients and many other enterprises. We have made premises belonging to our company available to be able to offer them to families. We do our best to support our employees and their families in this difficult time. Until now we have given shelter to a few dozens of people and every day there come new ones. The needs are enormous: additional equipment for residential use, daily hygiene products, products for toddlers, food, media, medical and psychological care, medicines, support for translators, official issues - all this led to the fact that we have also launched a fundraising campaign with the help of the Association for the Support of Children and Youth Education "Omnibus" from Pszczyna.

In case of transfers, it is very important to enter: **UKRAINA-SQDA** in the transfer title.

Thanks to this, the funds will be transferred directly to our fundraiser and will 100% go to those in need.

We invite everyone to cooperate with us - today we know very well that we will need every working hand, all the help. We hope that together we will be able to organize our activities even better and take care of the needs of our guests from Ukraine on a larger scale.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Donat Thomanek", with a stylized, flowing script.
